Cambridge, UK

Skills

Languages:

◇ Proficient with JavaScript and TypeScript!
◇ Familiar with C#, Python, Swift, Kotlin, LaTeX

Technologies:

◇ React and React Native
◇ Protocols: REST, WebSocket, GraphQL, BLE (GATT), WebRTC
◇ Native Apps: Jetpack Compose and SwiftUI
◇ 3D & XR: ThreeJS/R3F, WebXR, aframe, Unity, Godot and Blender
◇ Version Control & CI/CD: Git, Gitlab YAML, GitHub Actions, Azure
◇ Testing: Vitest, React Testing Library, Cypress, Detox, MSW
◇ CSS / Component Libraries: Tailwind, shadcn, daisyUI, motion

Experience

Cambridge Consultants

Senior Software Engineer Dec 2024 - Current
Software Engineer Nov 2022 - Dec 2024

◇ Frontend-focused engineer with broad experience across AI, XR, backend systems and UI/UX
◇ Delivered engineering work across **20+** projects, spanning healthcare, consumer, energy, biotech and industrial sectors

Projects

Petivity (Mobile App) - Nestlé Purina Apr 2023 - Feb 2026

◇ Implemented a Vet Report PDF generator invoked **1000+** times in **production**, exposing cat health over time, notable alerts etc via a GraphQL interface
◇ Resolved **several** production issues affecting users during device onboarding
◇ Contributed to BLE device onboarding feature, collaborating with Firmware, Design and Cloud teams across time zones
◇ Devloped an initial prototype for E2E testing using **Detox**
◇ **Technologies:** React Native, Glassbox (analytics), Firebase and Testflight (App distribution)

MetaSTAR - Remote Expert Demo Aug 2024 - Apr 2026

◇ XR Awards 2025 Finalist: Best Technical Achievement
◇ Demo trailer on Cambridge Consultants Vimeo
◇ Built and maintained the Meta Quest app and WebSocket server, implementing key features such as procedual mesh generation, cross system object synchronisation and UI state/flow driven by WebSocket messages
◇ Implemented Vision Pro UI flows using SwiftUI with dynamic state management
◇ Presented live demos externally to **15+** companies across market sectors
◇ **Technologies:** Unity, Swift, Express.js, WebSocket

AI Surgery Demo Jun - Jul 2026

- ◇ Demo trailer on Cambridge Consultants LinkedIn Post
- ◇ Delivered a joint CMR-Nvidia demo under a one-month deadline, showcased at Hamlyn Symposium 2026
- ◇ Implemented real-time controller integration for CMR's Versius system, enabling Nvidia's AI surgery simulation in real-time beyond the original Quest and keyboard-only controls
- ◇ Supported full UI navigation for Versius, using Quest controls and leva GUI components for prototyping UI / state interactions
- ◇ **Technologies:** React, MSW, WebSocket, EventSource, FastAPI, ThreeJS, leva

Imaigo - Cambridge Science Centre Nov 2023 - Jul 2024

- ◇ iF Design Award 2025 Winner: Children's AI Educational App
- ◇ Sole engineer on project team, implementing all UI features and design iterations
- ◇ Built Gitlab CI/CD to automate production and review app deployment
- ◇ Developed Cypress E2E tests with coverage across all activities
- ◇ Contributed to early product requirements and demo narrative
- ◇ **Technologies:** React, Teachable Machine, motion, Cypress, S3, CloudFront

LEGO SMART Play Aug 2025 - Apr 2026

Involved in the LEGO SMART Play project with details restricted due to NDA

Education

University of Sheffield Sep 2019 - Jul 2022

Computer Science BSc **2:1, 67.4%**

- ◇ *Dissertation Project:* **First Class, 70%**
  - · **Outcome:** Developed a VR interface for accessing images via Google Photos API to decorate a room
  - · **Technologies:** Unity, C#, Oauth2.0, XR Interaction Toolkit

Six 21, London Sep 2017 - Jun 2019

A Levels in Computer Science, Mathematics, Physics with EPQ. **A, A, B, A***

Hobbies

Distance Running: 17:18 5k, 35:49 10k, 1:22 HM, 3:01 Marathon

Music: Guitarist, singer and songwriter

Chess: University of Sheffield Chess Team Captain (2021-2022), 1855 Peak ECF
