jluong23.github.io/blog

Cambridge, UK

Skills

Languages:

- ♦ Proficient with JavaScript and TypeScript
- ♦ Familiar with C#, Python, Swift, Kotlin, L^AT_EX

Technologies:

- ♦ React and React Native
- ♦ Communication protocols: REST, WebSocket, TCP, MQTT, GraphQL, Bluetooth / BLE (GATT server), WebRTC, EventSource / SSE
- ♦ Native Apps: Jetpack Compose and SwiftUI
- ♦ 3D Graphics: ThreeJS / R3F, WebXR, aframe, Unity, Godot and Blender
- ♦ Version Control & CI/CD: Git, Gitlab YAML, GitHub Actions and Azure Pipelines
- ♦ Testing: Vitest, React Testing Library, Cypress, Detox, MSW
- ♦ CSS / Component Libraries: Tailwind, shadcn, daisyUI, styled-components

Experience

Cambridge Consultants November 2022 - Ongoing *Senior Software Engineer*

- ♦ Contributed to **20+** projects, primarily as a frontend engineer
- ♦ XR Awards 2025 Finalist: [Best Technical Achievement](#) for Project MetaSTAR
- ♦ iF Design Award 2025 Winner: [Imaigo](#) - Children's AI Educational App

Projects

Petivity App - Nestlé Purina

April 2023 - Feb 2026

- ♦ Implemented a Vet Report PDF generator invoked **1000+** times in **production**, exposing cat health over time, notable alerts etc via a GraphQL interface
- ♦ Contributed to the BLE device onboarding feature, collaborating with Firmware, Design and Cloud teams across time zones
- ♦ Developed an initial prototype for E2E testing using **Detox**, now used by QA
- ♦ Resolved **several** production issues affecting user during device onboarding
- ♦ **Technologies:** React Native, Glassbox (analytics), Firebase and Testflight (App distribution)

MetaSTAR - Remote Expert Demo

August 2025 - April 2026

- ♦ Demo trailer on [Vimeo](#)
- ♦ Built and maintained the Meta Quest app and WebSocket server, implementing key features such as procedural mesh generation, cross system object synchronisation and UI state/flow driven by WebSocket messages
- ♦ Built Vision Pro UI flows
- ♦ Presented live demos externally to **15+** companies across market sectors
- ♦ **Technologies:** Unity, Swift, SwiftUI, Express.js, WebSocket

NeuroSTAR - Remote Clinician Demo

August 2025 - April 2026

- ♦ A healthcare adaptation of MetaSTAR, showcased at NANS Annual Meeting 2026
- ♦ Led a team of junior engineers, conducting code reviews, driving refinement sessions and aligning expectations with internal stakeholders
- ♦ Received **recognition from CTO** with accompanying cash award

AI Surgery Demo

TODO: DATE

- ◇ Demo trailer on [LinkedIn](#)
- ◇ Collaboration with CMR and Nvidia, showcased at Hamlyn Symposium 2026
- ◇ Developed a web app to display Nvidia's AI generated surgery video, navigatable using CMR's Versius controllers in real-time
- ◇ **Technologies:** React, MSW, WebSocket, EventSource, FastAPI, ThreeJS

Imaigo

TODO: DATE

◇

LEGO SMART Play

August 2025 - April 2026

Involved in the LEGO SMART Play project with details restricted due to NDA

Education

University of Sheffield

September 2019 - July 2022

Computer Science BSc

2:1, 67.4%

◇ *Dissertation Project:*

First Class, 70%

- **Outcome:** Developed a VR interface for accessing images via an API to decorate a room. Built with Unity and XR Interaction Toolkit
- **Research:** Evaluating existing methods for interacting with VR interfaces and querying image collections, using Nielsen's usability heuristics
- **Technologies:** Google Photos API, OAuth2.0, XR Interaction Toolkit, Unity, C#

Six 21, London

September 2017 - June 2019

A Levels in Computer Science, Mathematics and Physics.

A, A, B

◇ *Extended Project Qualification (EPQ):*

A*

- **Title:** Are top-level chess engines capable of human intellectual capacity?
- **Description:** Analysis of algorithms used in chess engines, using Searle's Chinese Room Thought experiment as a test for human intelligence

Hobbies

Chess

- ◇ University of Sheffield Chess Team Captain (2021-2022)
- ◇ Organising fortnightly matches in the local South Yorkshire League
- ◇ Peak ratings: 2101 Rapid [chess.com](#), 2181 Rapid [lichess](#), 1855 [ECF](#)

Running

- ◇ Road PBs: 5k: 17:18, 10k: 35:49, Half Marathon: 1:22, Marathon: 3:01 (Debut)
- ◇ Currently training for a <3h marathon for Valencia, December 2026
- ◇ Member of Cambridge & Coleridge AC

Music

- ◇ Singer and songwriter, occasionally performing original songs in open mic nights
- ◇ Avid guitarist, enjoy collecting guitar pedals
- ◇ Few releases to popular streaming platforms
